Virtual Group Option

Our patented **VIRTUAL GROUP** is built from a collection of the chroma-key images we take of each graduate. This eliminates the need for the group to be together all at once and gets the best possible expression of each graduate. Corresponding names can also be added.

The TSS Difference: We always...

- ★ Photograph the graduate on and off stage
- ★ Keep track of each graduate's name and tie it to their photos
- ★ Provide a personal portrait gallery for each graduate & their family to view before ordering
- ★ Send emails with a direct link to the graduate's personal portrait gallery
- ★ Mail a printed photo-proof to graduates
- ★ Collect orders & payments online 24/7
- ★ Fulfill and ship online orders directly to the buyers within 2 business days

We have hundreds of graduation products to choose from which can be customized with your school logo.

Making your graduation a **SUCCESS**

We know each ceremony is unique so we will work with you to determine what is best for your school. TSS needs the ability to collect emails and current contact data in order to get the graduates their proofs via email and mail. We provide the tools to do this and have suggested posing that we can share with ceremony planners.
